
Daily Routine (Gym Rest Day)

Morning Deep Work (Most Important Brain Hours)

7:30 – Wake up

- Freshen up + light stretching
- No phone scrolling ✕

8:00 – 10:00 → LeetCode Block (2 hrs)

Goal: 3–5 problems max

Structure:

- 1 easy (warm-up)
- 2 medium (core learning)
- 1 hard (optional challenge)

👉 Morning is best for problem solving.

10:00 – 10:30 → Breakfast + break

☐ Late Morning – Machine Learning

10:30 – 12:30 → ML Learning (2 hrs)

Split like this:

- 60 min theory (course / notes)
- 60 min practice (notebook / coding)

Example flow:

- Mon/Wed/Fri → Theory heavy
- Tue/Thu/Sat → Project/practice heavy

12:30 – 1:30 → Lunch + rest

Afternoon – Full Stack Development

1:30 – 4:00 → Full-Stack Block (2.5 hrs)

Divide session:

- 1 hr learning (React/Node/DB etc.)
- 1.5 hr building your project

👉 This is your *portfolio time*.

4:00 – 5:00 → Free time / nap / walk ☕

🌙 Evening – Light Productivity

5:00 – 6:00 → Revision / Notes

Rotate daily:

- Revise ML notes
- Revise DSA patterns
- Read tech blogs / docs

This keeps knowledge from fading.

🏠 Night Wind-Down

6:00 – 8:00 → Gym

Very important to avoid burnout.

8:00 – 9:00 → Dinner

9:00 – 10:30 → Light Coding / Review

Options:

- Re-attempt tough LeetCode
- Fix bugs in fullstack project
- Watch tech videos

Low pressure session.

11:30 → Sleep 😴

Daily Study Hours Summary

- LeetCode → 2 hrs
- ML → 2 hrs
- Fullstack → 2.5 hrs
- Revision → 1 hr

Total productive time $\approx$ 7.5–8 hrs
